DETECTION AREA

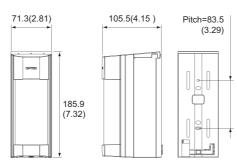

Without a back box (VXI-ST / AM / DAM) 70.9(2.80) 64.5(2.54) 89784 181.9 (7.16)

DIMENSIONS

With a back box (VXI-R / RAM / RDAM)

OPTIONS

due to

Wall Tamper (WRS-02) for ST. AM. DAM models

Wall Tamper (WRS-04) for R. RAM. RDAM models

Unit:mm(inch)

*Not applicable for a use of a set of dual technology models (DAM & RDAM)

Plug in EOL(End of line) Resistor Modules for wired models

Different values of EOL resistances can be instantly set by plugging in optional modules. Please refer to the relevant control panels manual to confirm matching resistance values.

PEU-A(PACK) Alarm: 2.2kΩ / Tamper: 4.7kΩ / Trouble: 2.2kΩ

PEU-B(PACK) Alarm: 4.7kΩ / Tamper: 4.7kΩ / Trouble: 6.8kΩ

Alarm: 1.0kΩ / Tamper: 1.0kΩ / Trouble: 12kΩ

arm: $5.6k\Omega$ / Tamper: $5.6k\Omega$ / Trouble: $5.6k\Omega$

- Flexible Detection Patterns
- Expanded Features in a Down-sized Body
- Digitally Enhanced Reliability

Specifications and design are subject to change without prior notice

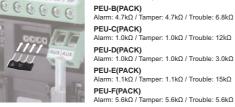

WIRED MODEL

VXI-ST : 12m wide 2PIRs standard VXI-AM : Anti-masking VXI-DAM : 2PIRs with Microwave

BATTERY OPERATED MODEL VXI-R : Battery operated 12m 2PIRs VXI-RAM : Battery operated Anti-masking VXI-RDAM : Battery operated 2PIRs with Mic

Re-defining the Standard: VX-Infinity has 6 models to choose from, including RDAM with innovative low current microwave technology.

PIR DETECTOR

VXI-ST (Wired model) VXI-R (Battery operated model)

Building upon features inherited from the VX-40 series, VX Infinity presents infinite possibility with the power of digital processing. VXI-ST/R demonstrates a long & stable performance in typical outdoor environment.

PIR DETECTOR with ANTI-MASKING

VXI-AM (Wired model) VXI-RAM (Battery operated model)

Active IR Anti-masking detects covering objects on lens surface when monitoring of the detector status is required.

PIR and MICROWAVE DETECTOR with ANTI-MASKING

VXI-DAM (Wired model) VXI-RDAM (Battery operated model)

Integrated algorithm of both PIR and Microwave provides the ultimate stability in detection performance. In a field where strong sun hits the land or facing direct light beams from traffic, DAM/RDAM offers higher false alarm immunity.

Flexible Detection Patterns

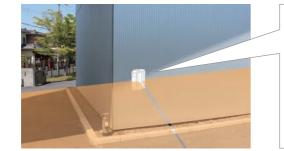

REAL SIZE

VXI-ST/VXI-AM/VXI-DAM

without Back Box

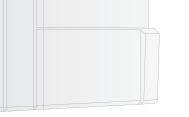

Optional 180 degree arrangement.

To cover a wider field, optional T-Bracket enables two VXI detectors join to form a single detection zone.

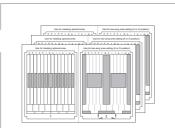

Optimal different detection pattern can be configured by a quick application of an assigned masking seal onto the VXI lens.

CAUTION: T-Bracket cannot be used for a

combination of two microwave detectors DAM-DAM, DAM-RDAM, RDAM-RDAM,

Pre-cut masking seals are included in all packages.

Expanded Features in a Down-sized Body

VXI reduced its profile size and increased its aesthetic appeal to be adapted at various installation sites.

Wireless Ready 🤕

IP55 Protection

A wireless transmitter of your choice can be accommodated in VXI-R/RAM/RDAM models. These models consume minimum electrical current* from a battery. Optional battery box (RBB-01) can expand the battery capacity to prolong an operation period *As low as 9 micro amperage at a standby

| Wireless Trigger Life Time* | | | | |
|-----------------------------|-------------------|--|--|--|
| VXI | R, RAM | | | |
| CR123 (3VDC 1300mAh) | Approx 6 years | | | |
| CR2 (3VDC 750mAh) | Approx 4 years | | | |

| Antenna Material | Gold-plated | Tin-plated |
| | | |

Digitally Enhanced Reliability

Digital Double Layer Detection

Both an upper and a lower detection areas must simultaneously be crossed to generate an alarm.

The detections are independently analyzed so that a misleading coincidence of events can be filtered out. This technology virtually eliminates detections of smaller animals in the premises.

SMDA logic (Super Multidimensional Analysis)

All VXI models are equipped with a digitally enhanced signal recognition logic called SMDA. SMDA improves immunity against various noise factors such as climate changes and vegetation sways. VXIs expands applicable fields and reliability beyond what VX-402 was capable.

Other Basic Common Features
